

Postgraduate Internship Awards

Add cutting-edge plant phenotyping to your research project

Apply for an APPN Postgraduate Internship Award (PIA) today and you could receive:

- Up to \$10,000 worth of access to our advanced plant phenotyping infrastructure
- The experience of working with our expert phenotyping team
- Support for travel and accommodation (up to \$2,000) if required

If you are a highly motivated, research-focused postgrad student, this is your chance to add a career-defining dimension to your plant science project. Use our incredible plant phenomics technology and infrastructure while learning from APPN experts at any one of our nine Nodes around Australia.

How to apply

APPN offers two PIA rounds per year with FOUR merit-based internships awarded per round.

Next submission deadline is
30 May 2026
(then 31 October 2026)
